

Letter of Assurance

January 2, 2019

The Food Safety Inspection Service of the U.S.D.A. has eliminated the prior approval program for Non-food compounds and proprietary substances. WYK Sorbents continues to adhere to the U.S.D.A. guidelines.

WYK Sorbents are listed in the NSF International White Book of NSF Registered and USDA Authorized Proprietary Substances and nonfood compounds.

WYK Sorbent products are acceptable for use in meat & poultry plants based upon the USDA guidelines. WYK Sorbent Products meet or exceed the previously accepted guidelines for use as an anti-slip floor compound and for liquid spill cleanup on floors and other no food contact areas.

WYK Sorbents have been certified to meet these guidelines and carries the NSF symbol.

NSF Non foods compounds
program listed (J1)
(141779)

For best results sorbent product should be immediately removed after use or at the end of a shift and re-applied as needed to provide safe dry floors.

For additional information, please contact WYK Sorbents, Product Support Department for additional information.

Sincerely,
James J. Callahan

Operations Manager
